

2019-IPR-A5-FGIV-011516

**FGIV – Scientist - Exploratory Research Project
Nanomedicine for Combatting Microbial
Infections (NANO-MICROBIALS)**

<p>Position for: FG IV Scientist</p>	<p>As the science and knowledge service of the Commission, the mission of DG Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.</p> <p>The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at http://ec.europa.eu/jrc/</p> <p>The JRC offers a vacancy for a Contract Agent within the Exploratory Research Project NANO-MICROBIALS (Nanomedicine for Combatting Microbial Infections).</p> <p>The JRC Exploratory Research Programme (ER) is a strategic initiative characterised by ideas that might lead to novel results to qualitatively enrich current JRC scientific work.</p> <p>Using the ability of nanovectors to encapsulate various anti-microbial drugs, the ER Project NANO-MICROBIALS will develop model targeted nano-delivery system to test combination of drugs and to assess their performances against selected bacterial models. This will allow identifying the key determinants of efficacy and quality of "targeted nano-antimicrobials". The aim is to speed up the development and use of these innovative "targeted nano-antimicrobials" by providing tools and procedure for their accurate characterization and testing.</p> <p>The successful candidate will be in charge of carrying out all aspects of the NANO-MICROBIAL project, this including:</p> <ul style="list-style-type: none">• Synthesis and basic characterization of the targeted nano-vectors;• Development of advanced methods for characterization of targeted nanodelivery systems;• Dissemination and publication of results. <p>Qualifications:</p> <ul style="list-style-type: none">• PhD degree in chemistry, nanotechnology, pharmaceutical technology, biochemistry, or related fields or, alternatively, completed university studies of at least three years attested by a diploma and at least five years professional experience in a field relevant to the position;• Extensive experimental research experience on characterization of biological macromolecules and/or nanomaterials is essential;• Broad knowledge in the area of separation (such as FFF, HPLC, SEC) and biophysical techniques (CD, protein analysis, fluorescence, MS, AUC) is an advantage;• Knowledge of advanced measurement techniques such as TEM, NMR is an advantage;• Solid record of publications in international peer-reviewed journals is essential;• Good oral and written communication skills in English (B2) are essential.
--	--

	<p>In addition, the following competences will be considered as an advantage:</p> <ul style="list-style-type: none"> • Ability to work in a team and in a multi-cultural environment; • The candidate is expected to be proactive and capable to work independently in the nanobiotechnology laboratory.
<p>Directorate Unit</p> <p>Project</p>	<p>Health, Consumers and Reference Materials Consumer Products Safety</p> <p>The Scientific Development Unit of the Directorate for Strategy and Work Programme Coordination is in charge of the overall JRC Exploratory Research Programme.</p> <p>The operational scientific research will take place in the Consumer Products Safety Unit in Ispra (Italy).</p> <p>Exploratory Research Project: Nanomedicine for Combatting Microbial Infections (Nano-Microbials)</p> <p>Further information is available at: https://ec.europa.eu/jrc/en/research-facility/nanobiotechnology-laboratory</p>
Indicative Duration	24 months
<p>JRC Site</p> <p>Country</p>	<p>Ispra</p> <p>Italy</p>
Rules and eligibility	<p>The candidate must be on a valid EPSO reserve list for Function Group IV contract staff.</p> <p>If you are not in any valid EPSO reserve list for Function Group IV contract staff, you can still apply by following these steps.</p> <p>You express your interest by applying to the CAST Permanent or to the permanent JRC Call for researchers.</p> <p>1. CAST Permanent: open-ended selection procedure to create a pool of candidates from which the institutions, bodies, offices and agencies of the European Union (EU) can recruit contract agents. https://epso.europa.eu/documents/2240_en</p> <p>2. JRC Call COM/1/2015/GFIV – Research: open-ended selection procedure to create a pool of candidates from which mainly the JRC can recruit contract agents FGIV as researchers. Details available at the link below: https://ec.europa.eu/jrc/en/working-with-us/jobs/vacancies/function-group-IV-researchers</p> <p>Only then you can apply for this specific position, through http://recruitment.jrc.ec.europa.eu/?type=AX</p> <p>Auxiliary contract staff: https://ec.europa.eu/jrc/en/working-with-us/jobs/temporary-positions/contract-staff-members</p> <p>Article 3b of the Conditions of Employment of Other Servants of the European Union applies: the actual period</p>

	<p>of employment within the Commission under this type of contract, including any period under renewal, shall not exceed 6 years.</p>
--	---

Please note that in case a high number of applications is received only shortlisted candidates will be contacted.
