**Data Collection and Analysis for  
Distribution System Operators Survey and  
Smart Grid Lab Inventory**

<p><b>Position for:</b></p> <p>Trainee</p>	<p>As the science and knowledge service of the Commission, the mission of Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.</p> <p>The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: <a href="http://www.jrc.ec.europa.eu">http://www.jrc.ec.europa.eu</a></p> <p><b>Short description of activity:</b> Unit C.3 "Energy Systems, Distribution and Markets" aims at serving EC policy DGs in assessing the current situation of the European distribution grid and the actions taken for achieving a functional smart grid. The Unit does so by gathering and analysing data with respect to the European Distribution Operators and their network. In addition, data gathering and analysis is also performed for estimating the status of the smart grid research in Europe and beyond. For this purpose, information is collected with respect to the existing smart grid laboratories and projects realised.</p> <p>The activity foreseen for this trainee, under the help and supervision of the Traineeship adviser, will be directed towards collecting and processing data regarding the Smart Grid Labs Inventory and the Distribution System Operator Observatory. The trainee will have direct contact with scientists in foreign institutes facilitating this data collection. He/she will further on work on elaborating the information collected, delivering a statistical analysis and contributing in the final JRC reports and scientific publications.</p> <p>The trainee will collaborate to:</p> <ul style="list-style-type: none"><li>• Contact foreign organizations for smart grid data collection</li><li>• Process the gathered information and elaborate on the results – statistical analysis, creation of JRC policy reports</li></ul>
