WE ARE:
As the science and knowledge service of the Commission, the mission of DG Joint Research Centre (JRC) is to support EU policies with independent evidence throughout the whole policy cycle.

The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: https://ec.europa.eu/jrc/

The current vacancy is in ADVANCE COMPUTING AND ICT SUPPORT of the JRC.

The mission of the Advanced computing and ICT support Unit at the JRC is:
- To act as a centre of ICT competence supporting the operational activities of the JRC;
- To implement the JRC ICT policy and to provide a reliable, efficient and secure ICT infrastructure for the whole JRC in line with the Commission ICT strategy;
- To support and coordinate the implementation of corporate information systems.

WE PROPOSE:
We are looking for an IT Project Assistant that will contribute to the implementation, management and follow-up of IT-projects in a dynamic environment.

She/He will be required to:
- Analyse, develop, test, document, support and maintain new and legacy information systems, in close cooperation with business owners and representatives, system architects and support staff;
- Provide technical guidance to project staff and to assist operational staff during the deployment and operation of information systems;
- Analyse and evaluate organisation, working procedures, working methods and business processes;
- Assist in the management of sub-contracted activities;
- Ensure the security of IT systems.

WE LOOK FOR:
Candidates must have:
- A completed university education of at least three years and;
- At least 5 years of relevant professional experience including Java EE, Oracle DB and Tomcat as well as knowledge of agile software development methodologies;
- A thorough knowledge of the software development lifecycle, from requirement analysis to deployment and maintenance;
- Experience and knowledge of working with Java Enterprise Edition and Web technologies;
- Understanding of project management methodologies and agile project management;
- A thorough knowledge of English both written and spoken (min. level B2);
- Proven interpersonal, organisational and problem solving abilities and the ability to work both independently and as part of a team.

Advantageous:
- At least 2 years of relevant professional experience with JRC development tools: Eclipse or IntelliJ IDE, AngularJS, Spring MVC, Git;
- At least 1 year of relevant professional experience in CI/CD practices
- Experience developing with the Spring Framework;
- Knowledge of Java build and dependency management tools (e.g. Maven) and Java application servers (i.e. Weblogic, Tomcat).
- Knowledge of secure development tools and techniques;
- Knowledge of the Angular framework;
- Knowledge of automated testing and CI/CD tools;
- Experience in data modelling and knowledge of Oracle RDBMS;

The selection board will appreciate candidates showing ability to work in a proactive and autonomous way and who are client oriented, capable to deliver in a structured way, with the ability to conceptualise problems, identify and implement solutions.

**INDICATIVE CONTRACT’S DURATION:**
36 months initial contract with possible renewals up to maximum 6 years.

**PLACE OF WORK:**
Ispra (IT)

**ELIGIBILITY CRITERIA:**
Candidates for this contract agent post shall:
- (i) have passed a valid EPSO CAST selection procedure;

With a valid application number to one of the above, you may then apply for this specific vacancy at JRC through: [http://recruitment.jrc.ec.europa.eu/?type=AX](http://recruitment.jrc.ec.europa.eu/?type=AX).

**RECRUITMENT POLICY:**
The Joint Research Centre
• Cultivates a workplace based on respect for other people and the environment.
• Embraces non-discriminatory practices and equality of opportunity. In case of equal merit, preference will be given to the gender in minority.
