FG IV - Business Analyst – Energy / Power markets

Position for:

**FG IV –
Business Analyst**

As the science and knowledge service of the Commission, the mission of DG Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.

The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: <https://ec.europa.eu/jrc/>

The vacancy is within the Knowledge for the Energy Union Unit of the Directorate for Energy, Transport and Climate, with a mission of providing, through knowledge management, scientific and technical support to EU policies related to the Energy Union strategy implementation, most notably on its research, innovation and competitiveness pillar. Our staff (about 50) is mainly based in Petten (NL).

The Contract Agent will be responsible for the follow-up and review of the energy/power market developments at EU and MSs levels.

The tasks will include:

- The production of a monthly newsletter flagging developments with relevance to the Energy Union strategy, its policies and associated activities.
- Following-up and synthesising the views of influential think-tanks on relevant policy issues.
- Proposition of topics to be considered in the work agenda of Dir C and JRC, at large.
- Liaising with and contributing to the European Semester work.

Qualifications:

The ideal candidate should have a completed university degree in Economics, Engineering, Political Science of at least three years attested by a diploma and at least five years of professional experience in energy related stakeholder management or energy policy related research or, alternatively should have a PhD degree preferably with research experience in relevant fields.

The candidate should have the ability to identify research, understand, critically analyse, and present policy relevant knowledge and information of concern to the EU's power market and energy internal market at large. A good understanding of the Energy Union political issues at stake its objectives and state-of-play of its advancement is essential.

It will be critical to meet deadlines and prioritise a varied and substantial workload. We expect a team playing mindset with a good sense of judgement and with excellent drafting and well-developed communication skills.

	<p>Good knowledge is needed on the Commission's procedures and experience in relations with stakeholders and other institutions.</p> <p>Very good command of English (B2) and writing skills (supported by a publications list), are essential. Multiple linguistic skills would be an advantage</p> <p>We look for a person with strong interest in energy issues, who will have a good aptitude of taking initiative, developing new concepts and be a strong team player.</p> <p>This position offers a number of varied and interesting tasks in a friendly and well integrated Unit to a motivated, flexible and reliable colleague.</p>
