

2018-GEE-F4-FGIV-010330

**FG IV - Project Officer - Scientific / Technical
Project Officer**

<p>Position for:</p> <p>FG IV – Project Officer - Scientific / Technical Project Officer</p>	<p>As the science and knowledge service of the Commission, the mission of DG Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.</p> <p>The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: https://ec.europa.eu/jrc/.</p> <p>The Fraud Detection and Prevention Unit, part of the Health, Consumers and Reference Materials Directorate at the JRC, is offering a position for a Contract Agent.</p> <p>The fight against food fraud is an EU priority aimed at keeping the highest food safety standards. Detection of fraud in the food chain requires not only appropriate analytical methods but relies to a large extent on intelligence gathering from a variety of sources to reveal vulnerabilities of food chains and to inform enforcement actions. The activity is embedded in the newly created European Knowledge Centre for Food Fraud and Quality (KCFFQ) (https://ec.europa.eu/jrc/en/food-fraud-and-quality).</p> <p>Our new colleague will apply state-of-the-art analytical techniques (liquid chromatography coupled to isotope ratio mass spectrometry and metabolomic profiling) to characterise authentic agricultural products of high economic value such as wine, honey, olive oil. The obtained data have to be organised to be easily retrievable and subjected to chemometric analysis. The future job holder will be part of the European Reference Centre for Control in the Wine Sector and is expected to support the team in the preparation of meetings with the network of national experts, where results are presented in an international forum. The candidate will also scan the horizon, collate information related to the state-of-the-art in the offered position to generate knowledge and contribute actively to the KCFFQ.</p> <p>Qualifications:</p> <p>The successful candidate shall have a degree in (analytical) chemistry or food chemistry or a related discipline with a strong focus on analytical techniques relevant to the job content. Familiarity with IT systems for storing and organising data and chemometric data evaluation is necessary.</p> <p>Good knowledge of spoken and written English (level B2) is essential.</p>
