**FG IV - Project Officer - Greenhouse Gases**

<p><b>Position for:</b></p> <p><b>FG IV – Project Officer</b></p>	<p>As the science and knowledge service of the Commission, the mission of DG Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.</p> <p>The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: <a href="https://ec.europa.eu/jrc/">https://ec.europa.eu/jrc/</a></p> <p>The Air &amp; Climate Unit, within the Directorate for Energy, Transport and Climate, is working on supporting air and climate policy development and implementation. Its GHG-MoVe project supports European and international climate change policy by providing independent estimates of greenhouse gas (GHG) emissions at the European and global scales. GHG-MoVe integrates measurements, model results and emissions data and also contributes to the assessment of the co-benefits and trade-offs between air quality and GHG reduction policies by estimating global air pollutant emissions in addition to the GHGs.</p> <p>We offer a position as project officer in a stimulating working environment in close collaboration with colleagues across the Unit, Directorate and beyond.</p> <p>The candidate will perform studies of fluxes of greenhouse gases and their role in climate change and biosphere-atmosphere exchange processes. He/she will be responsible for the operation of the Integrated Carbon Observation System (ICOS) ecosystem station in San Rossore, a forest flux measurement site close to Pisa. Furthermore, the candidate will provide underpinning knowledge to the policy development in this area.</p> <p>Qualifications:</p> <p>The candidate should hold a university degree in environmental science/chemistry/physics and should have at least 3 years of experience in collection and analysis of greenhouse gas measurements, experience in managing and running monitoring stations, as well as experience in computer programming.</p> <p>Experience in eddy-covariance measurements and programming knowledge in MATLAB is an asset.</p> <p>A good level of the English language is required (B2).</p> <p>Relevant experience of co-ordination and organization in similar positions should be highlighted.</p>
