**FG IV – Project Officer – Scientific Research –
Blue Economy Data Analyst and Modeller**

<p>Position for:</p> <p>FG IV – Project Officer – Scientific Research</p>	<p>As the science and knowledge service of the Commission, the mission of DG Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.</p> <p>The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: https://ec.europa.eu/jrc/</p> <p>The JRC offers a post in the Water and Marine Resources Unit, which contributes with research and innovative solutions to sustainably manage water resources in the face of increasing trends of global population, urbanisation, pollution, over-exploitation, land use and climate change.</p> <p>The post is assigned to the Fisheries and Aquaculture team and linked to the analysis of the Blue Economy with the aim to contribute to the EU's Blue Growth Strategy. 'Blue Economy' refers to the marine and maritime economy and covers all sectors and activities linked to the sea. Blue Growth is the EU's long term strategy to support sustainable growth in the marine and maritime sectors as a whole. It is also the marine/maritime contribution to achieving the goals of the Europe 2020 strategy for smart, sustainable and inclusive growth.</p> <p>We are looking for a highly motivated and skilled economist with solid work experience in data processing, analysis and modelling.</p> <p>Qualifications:</p> <p>The candidate must have a strong background in economics, econometrics or a related field.</p> <p>The candidate must have a PhD degree in any of these fields or, alternatively, at least 5 years of full time relevant experience.</p> <p>Essential requirement is expertise in economic and/or econometric approaches including solid quantitative, analytical, statistical and modelling skills.</p> <p>Preferential requirements include experience in data mining and database management as well as a strong knowledge of and experience with reporting and data dissemination, also through Business Intelligence Tools such as Tableau. The candidate should have experience in report writing and peer-reviewed scientific publications. Preferential requirements include moreover solid experience with statistical packages (e.g. SPSS, SAS, R, etc.) for analysing and disseminating datasets.</p> <p>An asset is IT-experience related to database development and management such as SQL and prior economic analysis of established and/or emerging Blue Economy sectors.</p>
<p>Directorate Unit</p>	<p>Sustainable Resources Water and Marine Resources</p>
