**FG IV - IT Project Officer – Information
Technology**

Position for:

FGIV – IT Project Officer

As the science and knowledge service of the Commission, the mission of DG Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.

The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: <https://ec.europa.eu/jrc/>

The mission of the Advanced computing and ICT support Unit at the JRC is:

- to act as a centre of ICT competence supporting the operational activities of the JRC;
- to implement the JRC ICT policy and to provide a reliable, efficient and secure ICT infrastructure for the whole JRC in line with the Commission ICT strategy;
- to support and coordinate the implementation of corporate information systems.

We are looking for an IT Project Officer that will contribute to the management of the network, security processes and services.

S/he will be requested to:

- plan, design and implement new service solutions based on the corporate system infrastructure;
- elaborate technical and administrative specifications to providers setting the basic requirements and possible improvements for their offers;
- implement and apply the security rules and procedures in place;
- construct and maintain business models and functional architectures;
- analyse and produce high level design of IT systems.

Qualifications:

Candidates must have:

- a completed university education of at least three years and at least 5 years of relevant professional experience;
- a thorough knowledge in ICT infrastructure management (server virtualization, networks, storage, application hosting);
- experience in managing projects in IT security domain;
- understanding of technical documentation and technical reporting experience;
- a thorough knowledge of English both written and spoken (min. level B2);
- proven interpersonal, organisational and problem solving abilities and the ability to work both independently and as part of a team.

Advantageous:

- experience and knowledge in IT networks' design and operation;
- experience and knowledge in system administration in a large environment;
- understanding of project management methodologies

	The selection board will appreciate candidates showing enthusiasm and team spirit, willing to learn new domains and to address new challenges in a dynamic and multi-cultural environment.
