FG IV – Project Officer Multi-Hazard Early Warning Systems

Position for:

**FG IV
Project Officer - Scientific**

As the science and knowledge service of the Commission, the mission of DG Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.

The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: <https://ec.europa.eu/jrc/>

The current vacancy is with the Disasters Risk Management Unit of the Space, Security and Migration Directorate. This Unit provides scientific and technical support to EU policies addressing global security and crisis management, particularly those concerned with improving the EU's disaster risk reduction measures as well as with enhancing the EU's preparedness and response capabilities in addressing threats ranging from health emergencies and humanitarian natural disasters to conflict and other risks.

The successful candidate would support and contribute to the objectives of the overall unit, directorate and JRC carrying out scientific and technical tasks within the CRITECH team on the basis of the Unit's work programme and in accordance with the JRC corporate policy and strategy. He/she would be part of the team that develops the Global Disaster Alert and Coordination System (GDACS) and provides support in case of ongoing emergencies to the European Commission's Emergency Response Centre (ERCC).

The successful candidate will undertake the following tasks:

- develop and improve multi-hazard Early Warning Systems, such as GDACS;
- provide science advice during emergencies worldwide, including situation reports, as a result of ERCC or hierarchy requests;
- implement projects related to local Early Warning for Tsunami;
- more in general contribute to foster scientific progress in data presentation and validation.
- organise workshops and events (such as the Disaster Risk Management Summer School), related to Disaster Risk Management;
- contribute to the production of scientific support to policy making in the field of disaster Risk Management, in collaboration with relevant international organisations and Commission services.

Qualifications:

We are looking for a proactive individual with a Ph.D. or university degree in Natural Sciences or equivalent and at least 3 years professional experience.
