JOINT RESEARCH CENTRE

2020-SVQ-A5-FGIV-015011

FG IV - Project Manager - Technical Project Leader (Scientific)- Social Classes in the Digital Age

Position for:

FG IV - Project Manager - Technical Project Leader (Scientific)

As the science and knowledge service of the Commission, the mission of DG Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.

The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: <https://ec.europa.eu/jrc/>

The current vacancy is in the Directorate for Strategy, Work Programme and Resources. With the JRC Strategy 2030, the JRC reinforces its commitment to scientific excellence. The creation of the Scientific Development Unit (SDU) is one of the instruments to underpin this strategy. As part of the JRC's strategic scientific development, the Directorate has established and manages the Centre for Advanced Studies (CAS).

The JRC is now looking for a Lead Scientist to develop a novel CAS project on "Social Classes in the Digital Age". CAS provides an interdisciplinary and stimulating space where JRC scientists are encouraged to think beyond the conventional, look forward towards cutting-edge technology hand-in-hand with scientific excellence.

The aim of the project is to update the traditional Social Sciences concept of Social Class in order to adapt it to the new economic realities of the Digital Age. By operationalising such a concept into a set of analytical tools, such as new class taxonomies, and applying them to contemporary phenomena, such as the decline of the middle class and job polarisation, the project will chart the current and future effects of digital technologies on inequalities and life chances as well as the emergence of new types of economic relations.

Within the CAS, the lead scientist will establish an interdisciplinary team of up to four scientists; design the concept, methodology and implementation plan of the project; and contribute to the excellence of the output and international outreach. In particular, the lead scientist will help facilitate cooperation with leading European and international experts in the field, and conclude the project with key scientific findings and recommendations for policy makers. The team may include (or collaborate closely with) researchers and data scientists in private firms that manage large datasets and

	<p>machine learning tools that are relevant for this project. The project has a maximum duration of three years and is provided with financial resources for execution.</p> <p>Qualifications:</p> <p>Essential:</p> <ul style="list-style-type: none"> • Completed university studies of at least three years attested by a diploma and at least five years of professional experience in a field relevant to the position, alternatively a doctoral diploma (PhD) in in Sociology, Economics or other Social Sciences. • Demonstrated experience in applied socio-economic research on social stratification, inequality, social classes or occupational change. • Professional experience in leading research projects, teams and/or international networks. • Excellent written and spoken English (C1). <p>Assets:</p> <ul style="list-style-type: none"> • Experience in research on new technologies and their socioeconomic impact. • Experience in working in (or with) large socio-economic databases, surveys or register data. • A good understanding of the policy-science interface as well as the challenges associated with it. • Proven interest and skills in developing and implementing new ideas, in particular in multi-disciplinary fields, are an advantage. <p>Interested candidates should provide a CV and cover letter. In the list of publications accompanying your CV, please highlight the most relevant publications. Please also include a short research proposal on the topic, outlining the objectives, concept and methodology (1000 words max) bearing in mind that you may be asked to present it at interview. A contact point for references will also be needed.</p> <p>The JRC cultivates a workplace based on respect for other people and the environment, embraces non-discriminatory practices and equality of opportunity encourages lifelong learning and development possibilities. In case of equal merit, preference will be given to the gender in minority.</p>
