**FG IV – SCIENTIFIC PROJECT OFFICER -
ENGINEERING CLOUD SOLUTIONS FOR THE
CAP MONITORING**

<p>Position for:</p> <p>FGIV- Project Officer – Scientific Research</p>	<p>As the science and knowledge service of the Commission, the mission of DG Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.</p> <p>The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: https://ec.europa.eu/jrc/</p> <p>The current vacancy is in the Directorate for Sustainable Resources (located in Ispra, Italy). Its mission is to provide independent scientific evidence to support the development, implementation, evaluation and coherence of EU policies, mainly in the areas of agriculture and rural development, development cooperation, environment and climate change, blue growth and fisheries, the bio economy, industry and trade.</p> <p>The vacancy is within the Food Security Unit, which contributes scientific development towards a more effective, and efficient management of EU policies related to agriculture and food security.</p> <p>The position will contribute to the work of the GTCAP (Guidance and Tools for the Common Agricultural Policy) group of the Food Security Unit, which has been developing and publishing technical guidelines for the Member States and DGAgri.</p> <p>The JRC offers a vacancy for Contract Agent.</p> <p>The candidate will contribute to the work of the group in improving the efficiency of CAP control and performance assessment and monitoring. The focus will be on the development of cloud solutions for satellite based monitoring in a European agricultural context. It will involve working as part of a team developing and publishing technical guidelines for stakeholders. The post will contribute to this by developing cloud solutions and sharing the results with the stakeholder community, including the Member States' Paying Agencies and their partners. The research will also help ensure convergence of CAP reforms with the European Green Deal's ambitions, and will contribute the Unit's work in partnership with other Commission DGs in building communities of practices on the implementation of the Regulation. The post may also involve work with other stakeholders including European Space Agency and European Environment Agency concerning the Copernicus and Galileo programmes..</p> <p>Qualifications:</p> <p>At least a university degree (giving access to doctoral studies) and, either 3 years of professional experience after the university or a doctoral diploma in the field of (geo)statistics sciences, data/information processing, big data handling, applied mathematics, computer science or equivalent discipline.</p>
---	--

	<p>Experience of coding, automation and programming skills are required. Experience is needed of open source statistical analysis and machine learning platforms.</p> <p>Experience with the analysis of optical and microwave remotely sensed data, Big Data Analytics and parallel processing skills are all assets. Knowledge of Europe's Earth Observation programme Copernicus, the European Strategy for Data would be an advantage.</p> <p>Proficient use of English (B2 as minimum), 2 other EU languages are useful.</p>
Directorate Unit	<p>Sustainable Resources Food Security</p> <p>Further information: https://ec.europa.eu/jrc/</p>
