

2021-IPR-C3-FGIV-019248

FG IV – Scientific Project Officer – Power system and market specialist**POSITION FOR:**

Member of the contract staff FGIV – art. 3b of the Conditions of Employment of Other Servants
<http://eur-lex.europa.eu/LexUriServ/LexUriServ.do?uri=CONSLEG:1962R0031:20110101:EN:PDF>

WE ARE:

As the science and knowledge service of the Commission, the mission of DG Joint Research Centre (JRC) is to support EU policies with independent evidence throughout the whole policy cycle.

The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: <https://ec.europa.eu/jrc/>

The current vacancy is within the Energy Security, Distribution and Markets Unit, belonging to the JRC Directorate for Energy, Transport and Climate.

The Energy Security, Distribution and Markets Unit supports the energy-related policy-making processes, particularly in the electricity and gas fields. Detailed information on the Unit's power-related activities is available here: <https://ses.jrc.ec.europa.eu/>

WE PROPOSE:

The electricity markets are the instruments expected to drive efficient resource allocations in the power sector. Their role and functioning are being continuously shaped by several factors including policy objectives – most notably the Green Deal and Clean Energy Package initiatives-, technological innovation and social behaviours.

The Unit is looking for a candidate tasked to:

- Conduct research activities on electricity market schemes and design challenges;
- Contribute to run power system/market models to assess market dynamics in different scenarios;
- Interact with stakeholders such as ACER (Agency for the Cooperation of Energy Regulators) and ENTSOE (European association for the cooperation of transmission system operators).

WE LOOK FOR:

The candidate should have completed university studies of at least 3 years attested by a diploma in economics, engineering, or similar areas, and have at least five years of professional experience, or a doctoral diploma in one of the fields mentioned above. He/she should be knowledgeable about electricity systems and markets.

A good knowledge of spoken and written English (B2) is required.

INDICATIVE CONTRACT'S DURATION:

12 months initial contract with possible renewals up to maximum 6 years.

PLACE OF WORK:

Ispira (IT)

ELIGIBILITY CRITERIA:

Candidates for this contract agent post shall:

– (i) have passed a valid EPSO CAST selection procedure;

or

– (ii) be registered in the EPSO Permanent CAST https://epso.europa.eu/documents/2240_en

or

- (iii) be registered in the specialised call for researchers <https://ec.europa.eu/jrc/en/working-with-us/jobs/vacancies/function-group-iv-researchers> (used mainly by the JRC).

With a valid application number to one of the above, you may then apply for this specific vacancy at JRC through: <http://recruitment.jrc.ec.europa.eu/?type=AX>.

RECRUITMENT POLICY:

The Joint Research Centre

- Cultivates a workplace based on respect for other people and the environment.
- Embraces non-discriminatory practices and equality of opportunity. In case of equal merit, preference will be given to the gender in minority.
