FG II – Technical Agent

POSITION FOR:

Member of the contract staff FGII – art. 3b of the Conditions of Employment of Other Servants

<http://eur-lex.europa.eu/LexUriServ/LexUriServ.do?uri=CONSLEG:1962R0031:20110101:EN:PDF>

WE ARE:

As the science and knowledge service of the Commission, the mission of DG Joint Research Centre (JRC) is to support EU policies with independent evidence throughout the whole policy cycle.

The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: <https://ec.europa.eu/jrc/>

The current vacancy is within the Support Services Directorate, Infrastructure Unit which is part of the Site Management Ispra Department and namely in the Drawing Group.

The Support Services Directorate of the DG JRC ensures the efficient and effective deployment of the resources necessary to support the JRC's activities, in compliance with all applicable rules and regulations and to make the JRC sites safe, secure and attractive working environments by providing efficient customer-driven services to facilitate the current and future scientific activities of the JRC while ensuring that JRC sites act as a good neighbour to their respective communities at large.

The mission of the Site Management Ispra Department and in particular of the Infrastructure unit, is to make the Ispra site a modern, attractive and effective place to work identifying and ensuring the application of the appropriate safety, security and environmental procedures and measures for the Ispra site.

WE PROPOSE:

A position as technician who will work within a team to ensure the operational and maintenance activities for the waste water system and drinking and cooling water plant.

The main tasks will include:

- ensure the operation and maintenance of water systems and relative networks for the correct production and distribution of drinking and cooling water;
- diagnose system malfunctions and, if necessary, carry out small replacement or maintenance interventions;
- carry out checks to supply with the appropriate quantity and quality of water, optimize the technical processes taking into account energy consumption in accordance with EMAS certification of the JRC;
- ensure the technical control of the works and services executed by subcontractors in the different facilities;
- perform the necessary actions in order to guarantee the periodic controls of Italian Authorities;
- contribute to the development and application of environment, health and safety in the workplace provision;
- apply the safety procedures and quality work instructions.

WE LOOK FOR:

A motivated dynamic colleague with adequate experience in the management and maintenance of water networks and plants with specific reference to the problems of purification and potabilization.

The position requires an excellent teamwork spirit, a culture of service, a sense of efficiency and the need of being included in rounds of availability; ability to manage problems and unforeseen events that can alter the normal functioning of the plants, possibly communicating the anomaly to the technicians and competent managers.

The nature of the duties requires a good level (B2) of Italian (for the interaction with external contractors) Knowledge of English or French will be a resource for relations with the occupants of the buildings.

INDICATIVE CONTRACT'S DURATION:

36 months initial contract with possible renewals up to maximum 6 years.

PLACE OF WORK:

Ispra (IT)

ELIGIBILITY CRITERIA:
