FG IV - Project Officers - Sustainable Production and Consumption

POSITIONS FOR:

Member of the contract staff FG IV – art. 3b of the Conditions of Employment of Other Servants

<http://eur-lex.europa.eu/LexUriServ/LexUriServ.do?uri=CONSLEG:1962R0031:20110101:EN:PDF>

WE ARE:

As the science and knowledge service of the Commission, the mission of DG Joint Research Centre (JRC) is to support EU policies with independent evidence throughout the whole policy cycle.

The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: <https://ec.europa.eu/jrc/>

The JRC offers a vibrant and multidisciplinary academic work environment, combined with a competitive salary ([Contract Agent Function Group IV](#)) and benefits/allowances package.

The current vacancies are in the Circular Economy and Industrial Leadership Unit of JRC. Further information about the unit's activities can be found via the following links: [Sustainable production and consumption \(europa.eu\)](#) and [Home | Product Bureau \(europa.eu\)](#).

The Circular Economy and Industrial Leadership Unit:

- Provides techno-economic support in the fields of industrial emissions, product policy, circular economy, waste and the EU Taxonomy.
- Develops and applies analytical modelling capabilities, economic analyses and impact assessments.
- Carries out techno-economic characterization of technologies, products and processes.
- Provides methodological, modelling and analytical support with regard to the socio-economic and environmental implications of environmental EU policy.

WE PROPOSE:

We have two vacancies for *Project Officers – Sustainable Production and Consumption* who would carry out research and analysis in support of policy making in the field of sustainable production and consumption and environmental policy.

The project officers will be in charge of a wide range of tasks including, but not limited to:

- Carry out scientific research on the environmental, economic and societal impacts of existing and emerging products and technologies, as well as on the respective policy implications.
- Contribute to research on the development of resource efficiency aspects of products with particular focus on the use of these methods in the context of environmental product

policies.

- Analyse, synthesize the results, and prepare reports for policy makers under the supervision of the responsible scientific officer.
- Help manage and engage with international scientific expert networks in order to contribute with a sound scientific basis to the EU policy decision-making processes.
- Organise and perform independently part of the research activities.
- Interact and contribute to other JRC projects.
- Provide policy support, such as translating scientific information to support EU environmental policy development and implementation.
- Publish scientific results in EU/JRC reports as well as peer-reviewed journals and other professional publications.
- Present the research as well as broader work of the unit and/or of the JRC to the European and international scientific and/or policy communities.

WE LOOK FOR:

Essential:

The ideal candidate should be an environmental economist, scientist or engineer with good knowledge of environmental analysis and techno-economic evaluation.

The ideal candidate should have a minimum of 3 years of professional experience after university studies of at least 4 years attested by a diploma.

The candidate shall have a very good level of written and spoken English (e.g. C1) and knowledge of at least another EU language.

Highly desirable:

- A finalised PhD degree (equivalent to 3 years experience).
- International experience.

INDICATIVE CONTRACT'S DURATION:

36 months initial contract with possible renewal up to maximum 6 years.

PLACE OF WORK:

Seville (ES). It is necessary to re-locate to the place of work. A removal allowance is provided. Telework is possible within the framework of the organization's rules and needs to be carried out from the place of work as a rule.

ELIGIBILITY CRITERIA:

Candidates for this contract agent post shall:

– (i) have passed a valid EPSO CAST selection procedure;

or

– (ii) be registered in the EPSO Permanent CAST <https://epso.europa.eu/en/documents/call-expressions-interest-0>

or

- (iii) be registered in the specialised call for researchers https://joint-research-centre.ec.europa.eu/working-us/jobs-jrc/temporary-positions/contract-staff-members/function-group-iv/job-opportunities-research-fellows-european-commission_en (used mainly by the JRC).

With a valid application number to one of the above, you may then apply for this specific vacancy at JRC through: <http://recruitment.jrc.ec.europa.eu/?type=AX>.

RECRUITMENT POLICY:

The Joint Research Centre

- Cultivates a workplace based on respect for other people and the environment.
- Embraces non-discriminatory practices and equality of opportunity. In case of equal merit, preference will be given to the gender in minority.
