

VACANCY NOTICE – 2023-BRU-02-FGIV-022715

Scientific/Technical Project Manager - medical applications of nuclear science

Type of contract	Member of the European Commission's contract staff, Function Group IV (article 3b of the Conditions of Employment of Other Servants)
Duration of contract	36 months (renewable up to maximum 6 years)
Area	Nuclear science applications
Place of employment	Brussels (BE)
Indicative basic salary	3877,47 - 5616,29 € (applicable as of 1 st of July 2022) For more detailed information please consult: Working Conditions

WE ARE

The [Joint Research Centre \(JRC\)](#) provides independent, evidence-based knowledge and science, supporting EU policies to positively impact society.

The current vacancy is with the Euratom Coordination Unit which is dealing with the coordination of all aspects of the JRC Euratom Programmes and Decommissioning & Waste Management work, contributing to European Commission's policy priorities. Activities managed by the unit include:

- Coordination of the Euratom research and training programme of JRC;
- Coordination of JRC's activities in nuclear safety, radioactive waste management, decommissioning, and emergency preparedness, including the radiation safety of JRC sites;
- Coordination of JRC's activities in nuclear safeguards and CBRN security;
- Coordination of JRC's activities in nuclear science applications and radiation protection;
- Coordination of the collaborations and R&D Euratom agreements with EU Member States, third countries, and International Organisations;
- Coordination of JRC's nuclear knowledge management, communication and foresight

The job holder will support the Unit's coordination activities in the fields of nuclear science applications (particularly the medical applications-related work), nuclear security and safeguards.

WE PROPOSE

A position as project manager to:

- Support the implementation and follow up of high-level activities in the medical applications of nuclear science, including the initiatives launched by the Commission on research support to security of supply and access to medical radionuclides.
- Draft, review and present technical contributions to EU Institutions (Council, EEAS) and partner DGs (ENER, ESA, RTD, SANTE) on meetings, documents and reports related to the Euratom activities of the JRC in nuclear science applications;
- Support the coordination of collaboration agreements with EU MS and international partners on health-related nuclear research (ex. with the UN Scientific Committee on the Effects of Atomic Radiation)
- Support the coordinator of practical arrangements and support programmes with EU MS and international partners in nuclear science applications as well as other areas (nuclear security and safeguards);
- Assist the coordination of JRC support to EU nuclear-related policies in these areas

WE LOOK FOR

We are looking for candidates with the following qualifications:

- university degree;
- a minimum of two years recent experience in the management of international projects and/or work in multidisciplinary teams, preferably in nuclear research related areas;
- a good knowledge of the Euratom programme, as well as of the EU policies and functioning of the EU Institutions;
- Strong problem-solving attitude, proven organisational, communication and drafting competences, good inter-personal skills, the ability to work in a team, the capacity to take initiative, and to work responsibly and autonomously;
- A very good knowledge of written and spoken English (B2); a good level of French may be considered an advantage.

HOW TO APPLY

If you are **already on a valid CAST FG IV reserve list**, or you **have already applied to one of the calls below**, you can directly submit your application at <http://recruitment.jrc.ec.europa.eu/?type=AX>.

If not, before applying to this position, **you must register** for one of the two following:

- the [Call for Expressions of Interest | EU Careers \(europa.eu\)](#) (CAST Permanent FG IV), which is used by a wide range of organisations (institutions, bodies, offices and agencies of the European Union), or
- the [specialised call for researchers](#) (JRC Call COM/1/2015/GFIV – Research), which is mainly used by the JRC.

Note that each of the calls above has **different minimum eligibility requirements and different selection tests**.

The JRC cultivates a workplace based on respect for other people and the environment, and embraces non-discriminatory practices and equality of opportunity. In case of equal merit, preference will be given to the gender in minority.
