Advances of tissue engineering for regenerative medicine

Position for:

Trainee

As the science and knowledge service of the Commission, the mission of Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.

The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: <http://www.jrc.ec.europa.eu>

Short description of activity:

The Consumer Products Safety Unit, part of Health, Consumers and Reference Materials Directorate at the JRC, is looking for a trainee to give support in the project "Convergence of novel technologies in medicine and medical devices".

He/She will contribute to explore the adaptation needs of regulatory science in medical technology to adequately and timely respond to challenges resulting from innovation in regenerative medicine. The trainee will assist the project team to:

- Collect data from EU-funded projects and international peer reviewed research in the field of tissue reconstruction in regenerative medicine and bioprinting
- Support a comparative analysis of traditional and innovative manufacturing processes in selected case studies

Qualifications:

Essential:

- University degree in biology, pharmacy, biochemistry or a related biomedical field
- Good knowledge of spoken and written English (level B2)
- Ability to work in a team

	<p><u>Advantage:</u></p> <ul style="list-style-type: none"> – Previous experience in the field of medical devices will be an asset – Good writing and oral communication skills <p><u>For general eligibility requirements, please read the rules governing the traineeship scheme of the JRC:</u></p> <p>https://ec.europa.eu/jrc/en/working-with-us/jobs/temporary-positions/jrc-trainees</p>
Unit / Directorate	Directorate F - Health, Consumers and Reference Materials Unit F.2 – Consumer Product Safety
Indicative duration	5 months
Preferred starting date	As soon as possible
JRC Site	Ispra
Country	Italy
