Alternative fuels infrastructure for transport

<p>Position for:</p> <p>Trainee</p>	<p>As the science and knowledge service of the Commission, the mission of Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.</p> <p>The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: http://www.jrc.ec.europa.eu</p> <p><u>Short description of activity:</u></p> <p>The Sustainable Transport Unit of JRC's Directorate for Energy, Transport, and Climate comprising more than 50 staff members, provides scientific and technical support on clean and efficient fuels and vehicles for sustainable mobility. The Unit also supports policies on alternative fuels including electro-mobility.</p> <p>In particular, the Unit supports the implementation of the EU alternative fuels infrastructure directive (2014/94/EU).</p> <p>The directive requires that member states prepare reports on the implementation of their national policy frameworks for alternative fuels infrastructure and send them to the European Commission. The European Commission then evaluates these reports.</p> <p>The trainee will support the assessment of the member states' reports on the implementation of their national policy frameworks for alternative fuels infrastructure. She/he will work within a small research team and under the supervision of expert members of our Unit.</p> <p>At the end of the traineeship, the trainee will have gained significant knowledge with hands-on experience on how an important pillar of the European energy/transport policy is implemented in practice.</p> <p>...</p>
