**Data gathering and data modelling for food manufacturing and food waste**

<p><b>Position for:</b></p> <p>Trainee</p>	<p>As the science and knowledge service of the Commission, the mission of DG Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.</p> <p>The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: <a href="http://www.jrc.ec.europa.eu">http://www.jrc.ec.europa.eu</a></p> <p><b><u>Short description of activity:</u></b></p> <p>This traineeship will give support to the ongoing assessment of food waste along supply chain in a project called Waste and residues.</p> <p>The trainee will contribute to the collection and management of waste statistics and to the development of models for food waste accounting along the supply chain and for the assessment of valorisation options (e.g. based on green chemistry principles) by means of Life cycle assessment.</p> <p>Specific focus will be on the analysis of data quality and reliability of estimation methods. One of the objectives of the traineeship is to support the assessment of data availability and the identification of solutions for data gap filling in the context of bio-based waste as well as the prospective assessment of valorisation pathways.</p> <p>Specific focus of the traineeship should lie on assisting the development of food waste modelling, including spatial differentiation, as well as contributing to the structuring of the underpinning databases.</p>
