Raw Materials Project and the Raw Materials Information System (RMIS)

<p>Position for:</p> <p>Trainee</p>	<p><u>Short description of activity:</u></p> <p>As the science and knowledge service of the Commission, the mission of DG Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.</p> <p>The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: http://www.jrc.ec.europa.eu</p> <p>The Land Resources Unit of the Sustainable Resources Directorate is looking for a highly motivated trainee to support the Raw Materials Project.</p> <p>The Raw Materials project provides science-based policy support in relation to the sustainable and secure supply of raw materials to the EU; both primary materials from extraction or harvesting and secondary materials from e.g. recycling. The project is implemented by a multi-disciplinary team addressing social, environmental, and economic considerations at EU and global scales. Key support activities include inputs to the development of the Raw Materials Information System (http://rmis.jrc.ec.europa.eu/) and in particular in relation to the further development of raw materials'-specific profiles. Raw materials' profiles are in fact being developed by JRC for nearly 80 raw materials, including Critical Raw Materials (CRMs) and other materials considered in the periodic EU criticality analysis. These profiles include information about raw materials' resources and reserves, supply, demand, market, as well as information related to environmental and social sustainability aspects.</p>
