Development and exchange of marine knowledge in the context of the MSFD CIS.

<p>Position for:</p> <p>Trainee</p>	<p><u>Short description of activity:</u></p> <p>Through the MSFD Competence Centre (MCC), JRC assists Commission and Member States in implementing the environmental objectives of the Marine Strategy Framework Directive, which is the environmental pillar of the EU's Integrated Maritime Policy. The MCC contributes to the exchange of marine knowledge, and features the assessment of the marine environment through targeted modelling and monitoring activities. It supports the sustainable development of the Blue Growth sectors and the deployment of ocean information systems, contributing to the efficient and sustainable management of activities to be achieved through Maritime Spatial Planning</p> <p>The successful candidate will mainly contribute to the further development of MCC online content and assist JRC colleagues with processes related to MSFD CIS (development of guidance documents, assessment of MS programs of measures).</p> <p><u>Qualifications:</u></p> <p>The ideal candidate must have a University degree in Biology, Environmental sciences, Oceanography (or similar field). Knowledge in the fields of marine resources development and protection is an asset. In-depth knowledge of MSFD strategy and related CIS processes is also an asset. Good knowledge of spoken and written English is required (B2 level).</p> <p><u>For general eligibility requirements, please read the rules governing the traineeship scheme of the JRC:</u></p> <p>https://ec.europa.eu/jrc/en/working-with-us/jobs/temporary-positions/jrc-trainees</p>
