

2016-IPR-D-000-6854

**Science and Technology Studies_Public
engagement**

Position for:

Trainee

Short description of activity:

The mission of the **Econometrics and Applied Statistics Unit** is to provide policy monitoring and impact evaluation in areas relevant to progress and stability of the European society. The unit's research on statistical indicators, applied econometrics and sensitivity auditing is used in key policy areas such as growth, competitiveness, lifelong learning, employment, innovation, the internal market and other social dimensions. The Unit also includes a group on Science and Technology Studies.

The Trainee will be part of the **Science and Technology Studies Project** in the Econometrics and Applied Statistics Unit. The candidate will be involved in support and research activities related to public engagement in food futures. The traineeship will contribute to high quality scientific publications and art installations. The candidate will have a traineeship within an interdisciplinary team with strong background on science and technology studies.

Qualifications:

Essential.

The candidate must:

- ✓ be a recent graduate in visual arts, with an interest on science and technology studies, in particular in arts and science interactions.
- ✓ be interested in engaging with critical thinking.
- ✓ have good command of spoken and written English (level B2).

Advantage An interdisciplinary background either academic or from previous professional experience.

For general eligibility requirements, please read the rules governing the traineeship scheme of the JRC:
