**CRITICAL MATERIALS for THE ENERGY
TRANSITION**

Position for:

Trainee

As the science and knowledge service of the Commission, the mission of Joint Research Centre is to support EU policies with independent evidence throughout the whole policy cycle.

The JRC is located in 5 Member States (Belgium, Germany, Italy, the Netherlands and Spain). Further information is available at: <http://www.jrc.ec.europa.eu>

The vacancy is within the Knowledge for the Energy Union Unit of Directorate C - Energy, Transport & Climate, with a mission of providing, through knowledge management, scientific and technical support to EU policies related to the Energy Union strategy implementation, most notably on its research, innovation and competitiveness pillar. Our staff (about 50) is mainly based in Petten (NL).

Short description of activity:

The trainee will support and contribute to the materials team activities addressing materials issues for low carbon technologies. She/he will be engaged in data/information collection. She/he will be also contributing to the analytical work of the team, calculations and results visualisation. This will in turn contribute to the development of her/his analytical, computing and presentation skills, as well as will develop/expend further her/his knowledge to use databases and different software, such as excel, tableau, etc.

Qualifications:

Essential: She/he should preferably have technical/ geo-political/ life science background.

A good oral and written knowledge of English is required (at least level B2).

Advantage:

Knowledge in materials and materials supply chains would be valued.
